ALGEBRA LESSONS

Lesson 1: Ratios and Proportions

Discovery Activity 1: Creating Equivalent Ratios	15
Discovery Activity 2: Proportional Rectangles	16
Self-Checking Activity: Complete the Proportion	17

Lesson 2: Probability

Discovery Activity 1: Simple Probability with a Number Cube (Die)	19
Discovery Activity 2: Simple Probability with Colored Squares	21
Self-Checking Activity: Simple Probability	24
Discovery Activity 3: Compound Probability	25
Discovery Activity 4: Compound Probability With and Without Replacement	26
Self-Checking Activity 2: Compound Probability	28

Lesson 3: Scientific Notation

Discovery Activity 1: Scientific Notation with Positive Exponents.....	29
Self-Checking Activity 1: Scientific Notation with Positive Exponents.....	30
Discovery Activity 2: Scientific Notation with Negative Exponents.....	31
Self-Checking Activity 2: Scientific Notation with Negative Exponents	33

Lesson 4: Solving Linear Equations

Discovery Activity 1: Solving Linear Equations (Addition, Subtraction, Division).....	35
Guided Practice 1: Solving Linear Equations (Addition, Subtraction, Division).....	36
Discovery Activity 2: Solving Linear Equations (Addition, Subtraction, Multiplication).....	36
Guided Practice 2: Solving Linear Equations (Addition, Subtraction, Multiplication).....	37
Self-Checking Activity: Solving Linear Equations (Mixed Practice)	38

Lesson 5: Slope and Y-Intercept of Linear Equations

Discovery Activity: Exploring the Slope/Y-Intercept Form on an Equation	39
Self-Checking Activity: Linear Equation Matching Game	40
Student Activity: Creating a Linear Graph.....	42

Lesson 6: More Slope – Rise over Run

Discovery Activity 1: Rise over Run with User Input.....	47
Discovery Activity 2: Rise over Run Randomly Generated.....	48
Self-Checking Activity: Writing the Equation of a Pictured Line.....	49

Lesson 7: Parallel and Perpendicular Lines

Discovery Activity 1: Parallel Lines Randomly Generated.....	53
Guided Practice 1: Parallel Lines with Student Input.....	54
Discovery Activity 2: Perpendicular Lines Randomly Generated.....	54
Guided Practice 2: Perpendicular Lines with Student Input.....	55
Self-Checking Activity: Matching Parallel and Perpendicular Equations.....	55

Lesson 8: Quadratic Equations

Discovery Activity 1: The x^2 Variable.....	57
Discovery Activity 2: Two Variables.....	58
Discovery Activity 3: Three Variables.....	58
Self-Checking Activity: Parabola Matching Exercise.....	59
Student Activity: Parabola Pandemonium.....	61

Lesson 9: Systems of Equations

Discovery Activity 1: Systems of Equations	65
Discovery Activity 2: Checking the Solution	66
Student Activity: Present a System of Equations and Solution	66
Self-Checking Activity: Solving Systems of Equations	67

GEOMETRY LESSONS

Lesson 10: Circle Sectors

Discovery Activity 1: What is a Sector?	71
Discovery Activity 2: Calculating Sector Area	72
Student Practice: Finding Sector Area Practice	73
Student Activity 1: Creating a Pie Graph	74
Student Activity 2: Formula for Sector Area	78

Lesson 11: Equations of Circles

Discovery Activity 1: Center at the Origin	79
Discovery Activity 2: Center Not at the Origin	80
Self-Checking Activity 1: Determining the Equation of a Circle	81
Self-Checking Activity 2: Determining the Center and Radius of a Circle	82

Lesson 12: The Pythagorean Theorem

Discovery Activity 1: Finding the Length of the Hypotenuse	85
Guided Practice 1: 1 st Quadrant Practice	86
Guided Practice 2: All Quadrants Practice	87
Student Activity 1: Creating an Excel Formula to Find the Hypotenuse	87
Discovery Activity 2: Finding the Length of a Leg	88
Guided Practice 3: Finding the Length of a Leg with no Picture	89
Student Activity 2: Creating an Excel Formula to Find the Length of a Leg	90

Lesson 13: The Distance Formula

Discovery Activity 1: Distance Formula Introduction	91
Guided Practice 1: Substituting Values into the Distance Formula	92
Self-Checking Activity: Calculating the Distance between Two Points	93
Student Activity: Creating an Excel Formula to Calculate the Distance	94

Lesson 14: Midpoint Formula

Discovery Activity: Midpoint Demonstration	95
Guided Practice 1: Substituting Values into the Midpoint Formula	96
Guided Practice 2: Finding the Midpoint	97
Self-Checking Activity: Finding the Midpoint (No Graphs)	98
Student Activity: Creating an Excel Formula to Find the Midpoint	99

Lesson 15: Area of Polygons

Area of Rectangles

Discovery Activity 1: Area of a Rectangle on a Coordinate Grid	103
Guided Practice 1: Area of a Rectangle Practice	104
Self-Checking Activity 1: Area of a Rectangle Given the Length and Width	105
Student Activity: Creating an Excel Formula to Find the Area of a Rectangle	106

Area of Parallelograms

Discovery Activity 2: Area of a Parallelogram on a Coordinate Grid	106
Guided Practice 2: Area of a Parallelogram Practice	107
Self-Checking Activity 2: Area of a Parallelogram Given the Base and Height	108
Student Activity 2: Creating an Excel Formula to Find the Area of a Parallelogram	109

Area of Triangles

Discovery Activity 3: Area of Right Triangles	109
Guided Practice 3: Practice Finding the Area of a Right Triangle	110
Discovery Activity 4: Area of Any Triangle	111
Guided Practice 4: Area of Any Triangle on a Coordinate Grid	112
Self-Checking Activity 3: Area of a Triangle Mixed Practice	113
Student Activity 3: Creating an Excel Formula to Find the Area of a Triangle	114
